DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 9, 2007 has been entered. Claims 1, 6, 16, 23, 25-27 are pending in the application

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1, 6, 16, 23 and 25-27 are rejected under 35 USC 102(a) as being anticipated by Campo (The impact of location factors on the attractiveness and optimal space shares of product categories).

Regarding claim 1, 6, 16 and 23, Campo discloses:

- (i) receiving factor data associated with the product (Note section 2.1);
- (ii) receiving factor data associated with the product category, wherein the factor data associated with a product category comprises product category sales (Note section 2.1);
- (iii) receiving hypothetical sets of shelf space size set for the product (Note section 2.1);

(iv) identifying the shelf space size set for the product, among the hypothetical sets of shelf space size set data, by mathematically optimizing for the product category sales based upon said factor data associated with the product and said factor data associated with the product category (Note sections 2.1, 2.2 and 3.1.2).

Regarding claim 25-27, Campo discloses::

- (i) receiving factor data associated with the product category at a retail store comprising financial data (Note section 2.1);
- (ii) receiving factor data associated with the product categories at the retail store, wherein the factor data associated with the plurality of product category comprises sales for the plurality of product category (Note section 2.1);
- (iii) receiving hypothetical sets of shelf space size set for the product categories (Note section 2.1);
- (iv) identifying the shelf space size set for the product category, among the hypothetical sets of shelf space size set data, by mathematically optimizing for the sales of the plurality of product category sales based upon said factor data associated with the product categories and said factor data associated with the product category (Note sections 2.1, 2.2 and 3.1.2)

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
